ADA, OKLAHOMA, FRIDAY, SEPTEMBER 2, 1921.

FIVE CENTS THE COPY

CITY NOW FACING KNOTTY QUESTION

Excise Board Cuts Estimate
To Five Mills With
Cars on Hand.

City commissioners were wrestling with an unusual situation Friday morning when, as a result of action taken by the county excise board in cutting the city tax levy from six to five mills, city automobiles costing \$1365 were left on hands without money to meet the bill.

After a meeting of city commissioners recently at which the purchase of the cars was authorized, an automobile costing \$865 was bought for the police department and another costing \$500 was added to the department of public works. Local banks advanced money to pay for the cars and the excise board has provided no means for meeting the note, according to the mayor.

A protest to the slash was entered by Mayor Kitchens who secured a postponement until Saturday noon before the new tax levy is finally signed and made effective.

"I expect to fight it to the last ditch," the Mayor declared. "It is not that I am opposed to making taxes as low as possible but rather that the inadequate police protection due to the lack of expenditure of money which we have on hands has reached a disgraceful state in Ada."

Motor Service Gone.

As the levy now stands, the city will be without any motor service for the police, the motorcycle will be cut off, and the police car must be discontinued, Kitchens said. In addition to this the police department will be forced to cut the services of a sanitary officer, now working full time, to six months in the year. In his fight before the excise board against the slash, Mayor Kitchens urged that if members of the board were determined to make the cut that the millage be reduced to four or even three mills so an appreciable saving could be made to voters.

"I am thoroughly displeased with the situation. We cannot increase police protection much with only one man as they allow. And the thing that makes this unreasonable is the fact that we actually have the money on hands without working a hardship on anybody, to run the city efficiently. This creates an inconsistency that is hard to understand," Mayor Kitchens said. Ada was one of the few cities of Oklahoma last year that went through on a spot cash basis and was not confronted with the necessity of voting funding bonds, Kitchens showed.

No Reply Made.

Nick Heard, county assessor and member of the county excise board, said at noon Friday that he had no statement to make in connection with action taken on the city estimate. If it becomes necessary to do so later, the statement will be made public, he announced.

MOEL DISPLAYS SIXTY FEET OF MEN'S HATS

The Model broke all records last week with a display of men's felt hats and caps. The hats, three of four tiers deep, stretched around thirty feet of the show windows and everything was the latest style in head gear. The Model declared itself ready to guarantee to fit any head in the county.

B. S. BRUNDRIDGE BRINGS THIRD BALE TO ADA

B. S. Brundridge who lives near Center, brought in a bale of cotton Thursday, making two for one day. His was the third of the season. It was sold to John L. Case, who paid 16.85 for it.

Brilliant Prospects Lie Before Normal Gridsters As Season Nears Opening

Promising material for a football team is turning up rapidly and prospects for a good football season are bright, according to a general sport summary submitted by Coach M. Z. Thompson, of East Central Normal, Friday. With the season rapidly approaching and only a few more days until first practice, Thompson is beginning to lay out his plans for a hot gridiron campaign this year.

One of the best prospects of the year is the addition of Gilbert Mackin of Durant to the line-up. Mackin was a favorite of Durant Normal team last year and has a good record as a follower of the sport. Two good men are coming from Tishomingo, both having starred on the high school team last season. Reed of Holdenville, all state high school quarter-back, will be with the Ada Normal squad. There will also be one or two others from Holdenville as probable material.

These are all new men and most of them have had no college

DEALERS BACK UP HOT CHECK FIGHT

"Getting Money on Credit"
Must Be Squelched,
Walker Says.

Ada Chamber of Commerce will stand squarely behind County Attorney Wayne Wadlington in his war against hot check artists, O. N. Walker, secretary, declared Friday morning in a statement in which he declares the menace to be one of the most prolific that hampers business in the city.

Although the hot check writer is not a new-comer in Ada, Walker said, his gabe was never as hurtful as now when all merchants are practicing rigid economy to make a fair profit in their business.

"The drive which the county attorney is making against the writing of bogus checks will bear good results, I am sure," Walker declared, adding that in several cases which have come to his knowledge already writers of worthless checks had been brought to time and forced to make payment on their bad paper. Walker told of one instance where a hot check for \$35 was reported to the county attorney's office and in less than a day the writer had been pushed to the point where he was glad to make cash payment.

The object of the movement, it has been pointed out, is not to make a collection agency out of the county attorney or county sheriff's office but to use these offices as media to compel a strict adherence to law. Merchants now stand ready to push criminal charges for the malicious and fraudulent writing of worthless checks, they declare.

"Some habitual hot check experts, I am told, have been using this route on the 'open account' basis. I mean by that they write a check of no value at all and then make small payments on it when hard pushed by the man who cashed it. This is getting money on credit, one of the most modern forms of crime I can imagine," Walker said.

UNION ARMY VET LOCATES MAN HE WOUNDED IN EYE

(By the Associated Press)
KELESO, Wash., Sept. 2.—P. J. Knapp, a Civil War veteran, after 58 years, has traced the course of a bullet he fired at the siege of Vicksburg.

Some time ago Mr. Knapp read a news dispatch saying that W. V. Meadows, a Confederate veteran of Lanett, Ala., had caught up a bullet which was shot into his eye at Vicksburg. Mr. Meadows, the account said, was a member of 37th Alabama regiment, and Mrs. Knapp recalled an incident at the siege when he and three other members of the 5th Iowa Volunteers were called upon to silence a Confederate sharpshooter who was firing through a small hole in a sheet of boiler plate.

After Mr. Knapp fired, the sharpshooter's shots were discontinued, and it was surmised that he had been shot in the eye.

When Mr. Knapp wrote to Mr. Meadows, the latter said that he was the man behind the boiler plate and that the bullet entered his right eye. Mr. Knapp received a photograph of the bullet and of Mr. Meadows. The two veterans have enjoyed considerable correspondence over the incident.

Oklahoma Weather.
Tonight and Saturday partly cloudy; thunder showers tonight in northeastern portions.

BREAD CAST UPON THE WATERS—?

MAN IS SUICIDE IN PARK FRIDAY

John Tipton Drinks Ounce
of Poison to End Life;
Motive Sought.

The second death to occur in Glenwood Park within the last few weeks came at 8:45 Friday morning when John Tipton, of 531 West Second street, ended his life by drinking more than an ounce of carbolic acid. Tipton was found by some boys shortly after he took the poison and officers and doctors were notified. He never regained consciousness, however, and died in less than thirty minutes.

Tipton appears to be a man of about sixty years of age. It is reported that he was married, the second wedding occurring little more than a week ago. On being notified of his act, the wife was completely mystified as to Tipton's motive.

He left home only about an hour before he was found dead, she said, telling her that he was on a deal to buy a residence in southeast Ada. "He said that he must be at the M. & P. bank and sign up the papers before ten o'clock," Mrs. Tipton told police. "We were to move as soon as possible into the new home. I have not the least idea as to why he wished to die. We were living happily together and he seemed to be in the best of spirits today. I know of nothing that could have caused him to do it."

Cement Plant Employee.
Tipton is said to have been an employee of the cement company for several years. He was not regularly employed at anything at this time. He leaves several children, his first wife being dead. All of the children are in California. Efforts were being made today by the Criswell-Meyers Undertaking establishment, where the body was taken, to locate the children.

Tipton took the poison under some trees in the park, near the pavilion, those who were at his side when he died said. A small glass, said to have contained some carbolic acid, was found near where he lay. His lips were burned by the acid.

DE VALERA'S REPLY IS RELAYED ON TO LONDON

(By the Associated Press)
LONDON, Sept. 2.—Premier Lloyd George has sent the reply of Eamon de Valera, Irish republican leader, to his latest communication on the British peace proposal to London for circulation among the members of the cabinet. Having received notice of the spirit involved, Mr. Lloyd George has summoned a cabinet meeting to be held on Wednesday next at Ivernes, Scotland.

"I WANT BURIAL SUIT" MIDNIGHT VOICE DECLARED

Mystery still veils four telephone calls which took almost as many business men of Ada out of their beds at the midnight hour one night this week and down to the business section of Ada.

At 11:30 p. m. Wednesday night the telephone at the residence of B. Scheinberg, manager of the Model clothing store, rang. A woman's voice came over the wire.

"Can you please come down to the store and sell me a burial suit. I must leave on an early morning train," it said in sorrowful tones.

Mr. Scheinberg complied and found nobody at the store. He waited on the deserted streets for some time but no one appeared. At about the same time a woman's voice over the wire called Jackie Hersh, local pawnshop dealer, downtown. She wanted to buy a diamond ring, she said. He found nobody at the store.

It is also reported that an alarm was turned in at the same hour at the fire station and another at a local law firm. Telephone operators said they were unable to determine who turned in the strange calls.

"LYNCHING WILL END WHEN BLACK STOPS OUTFRAGE"

CINCINNATI, Sept. 2.—Impartial annihilation of the "whole pernicious brood" of what is generally called the mob spirit is the only way of safe guarding the public, Luther Z. Rooser, of Atlanta, Ga., told the American Bar association on the ill use of the law this morning.

"Lynching will cease only when negroes stop attacking white women," he said "and the whites reach the stage when they can restrain themselves in favor of the law—two things to develop which cannot be met by the law alone is the awakening of the public conscience and uplifting of the two races."

"But lynching is only one phase of the mob spirit," he continued, "it lays its acts at the feet of the government."

LAWYERS PREPARING TO
END MEETING TONIGHT
CINCINNATI, Sept. 2.—Election of officers and the annual report of the American Bar association, to be presided over tonight by Judge Past of the United States supreme court, were the principal features of the final day's session of the 44th annual convention.

NOTICE MASONS.
Ada Lodge No. 119, A. F. & A. M., will meet in called communication tonight at 8:00 o'clock for the purpose of work daily invited.—John Thrasher, W. M.

RAIL OFFICIALS ASLEEP AT POST

Government Regulation Has
Deadened Business Sense,
Counsel Says.

(By the Associated Press)

WASHINGTON, Sept. 2.—Government regulations of railroads has so deadened the senses of railway officials to business conditions that they no longer are able to determine when to reduce freight rates and save their businesses, J. F. Benton, counsel for the state railway commission, declared today in an oral argument before the interstate commerce commission on the application to reduce rates on grain and hay. The government has set the rates and as a result traffic officials no longer study the conditions with a view of competence.

The sole act of the American roads, Mr. Benton said, in meeting the competition of the Canadian roads for the exportation traffic on grain was an example of the "deadened sense" of railway officials.

WOOD ACCEPTS POSITION AS GOVERNOR GENERAL

MANILA, Sept. 2.—Major-General Leonard Wood today announced his acceptance of the post as Governor General of the Philippines tendered to him by President Harding.

General Wood notified Secretary of War Weeks that he would retire from the army on account of his acceptance of the governorship. He said he believed it to be his patriotic duty to accept the post owing to the seriousness of the situation in the Philippines.

General Wood said he probably would not ask to retire from the army until his appointment as governor general of the Philippines had been confirmed by the senate.

OKMULGEE SHERIFF ON TRIAL FOR MISCONDUCT

OKMULGEE, Sept. 2.—The trial of Sheriff Lon Kuhn of Okmulgee county on a charge of misconduct while in office will take place before a jury in the district court, it was announced today by County Attorney James Hepburn. It will be several days before the charges are filed, it was said, as the court of inquiry has not yet adjourned.

NOTICE TO PUBLIC

In accordance with our usual custom all stores will be closed all day Monday, September 5, account Labor Day. Don't fail to lay in your provisions Saturday to last you over Monday.

ADA RETAIL MERCHANTS

BUSY WEEK AHEAD FOR ADA FACULTY

Program for Meetings of
Teachers and Enrolling
Is Announced.

Next week promises to be a busy one for ward and high school officials and students, according to a report made Friday by Prof. J. E. Hickman, city superintendent of schools. The fall term opens Sept. 12 at 8:30, and preparatory to this opening a program will be carried out next week as follows:

A meeting will be held by principals of the ward schools at the High School on Monday, Sept. 5. A class meeting will also be held by the Senior class at the high school building on the same day at 1 p. m. Following the meeting Monday, principals of the ward school will meet the janitors for a conference on Tuesday, Sept. 7.

The first general meeting of teachers in both ward and high schools will be held Wednesday, Sept. 7 at the high school building at 9 a. m. High school teachers will hold a conference Thursday, Sept. 8, at the high school at 9 a. m. for the purpose of getting together for the coming fall term. Grade teachers will be in conference with drawing and music supervisors on Thursday, Sept. 8, at the high school at 9 a. m. The final meeting of teachers will be that of grade teachers and their principals and high school teachers and their principal on Friday, Sept. 9, at the ward and high school buildings.

Enrollment and classification of juniors and seniors will be held at the high school Wednesday, Sept. 7 beginning at 1 p. m. Sophomores will enroll Thursday at the high school building, beginning at 1 p. m. The freshman enrollment will be held Friday at the high school building beginning at 1 in the afternoon. All grade pupils may begin enrolling on Monday Sept. 5 after 1 p. m. as all teachers will be on duty at this time. Classes will not start until Monday, Sept. 12, however. This will give students plenty of time to get books before school opens.

LANDIS IS BUSY AND WON'T WORRY OVER CRITICISM

(By the Associated Press)

CHICAGO, Sept. 2.—Judge J. M. Landis stated when seen today that he was too busy on other matters to issue a statement in reply to the resolution adopted by the American Bar Association at the convention yesterday in which he was criticized for holding a federal office and his position as baseball commissioner at the same time.

"I haven't given it a thought," Judge Landis said, "but may take it up later in the day."

GULF DIVISION OFFICE ENDS SHIP BUILDING

(By the Associated Press.)

NEW ORLEANS, Sept. 2.—The offices of the gulf division of the American Ship Building corporation were closed today virtually ending the labor which at one time engaged 3,000 men in six southern towns. The gulf division is now in charge of D. T. Williams, and employs about 50 men.

The gulf division constructed 151 vessels of 707,400 dead tons and transformed wooden hulls into barges with a dead tonnage of 176,703.

The man who invented a wanted was on to his job. It is the quick road to results. Try one.

Let a News Want Ad Get it.

Troops Ordered Entrain For West Virginia Mine Riot Scene Early Today

(By the Associated Press.)

WASHINGTON, Sept. 2.—Orders for the immediate entrainment of troops for the West Virginia strike zone were issued early today by Major General Harbord, assistant chief of staff. Action was postponed, however, on the question of declaring martial law pending the conference between Secretary Weeks and other government officials, with the president. The proclamation has been signed and requires only issuance to become effective.

The orders were issued as a result of a telegram from Brigadier General Bandholtz who was sent by Secretary Weeks to report the situation and particularly whether the strikers would accede to the president's command that they disperse.

General Bandholtz at midnight recommended that troops be sent "at once."

19th Infantry Will Move.

The troops which will move immediately are the 26th and 16th Infantry at Camp Dix, N. J., and the

LOSS TO RUN HIGH IN ARDMORE FIRE

Blaze in Business Section
Causes Damage Estimated at \$200,000.

(By the Associated Press)

ARDMORE, Sept. 2.—A fire of unknown origin early this morning completely destroyed the building and stock of the Norris Grocery Co., and badly damaged two of Ardmore's largest dry goods stores. The fire damaged the Westheimer and Daube and Henry Baum stores. The total loss is estimated at more than \$200,000, partly covered by insurance.

ARDMORE, Sept. 2.—The fire caught the lower floor of the Jones building just west of the grocery store, occupied by Baum's Dry Goods store, which suffered almost a total loss of stock. Mr. Baum estimated his loss at \$65,000. The millinery store of Miss Daisie Gray in the rear of the Baum store was also a total loss. The second floor of the Jones building was occupied by several doctors and a photographic studio.

The Jones building was constructed after the fire of 1895. It was one of the landmarks of the city and was one of the few buildings which escaped when the explosion in 1915 came, without having to be repaired. The fire caught in the Jones building could not be learned.

11-Year-Old Girl's Testimony Is Ruled Out in Poteau Case

(By the Associated Press)

POTEAU, Sept. 2.—Testimony of Erda Davis, 11 year old daughter of Mrs. Tina Davis, for whose murder at Stigler on Feb. 8, 1913, John W. Harrell is on trial in the district court here, was ruled out by Judge Lester of Wilburton.

After the arguments, began yesterday afternoon, Judge Lester sustained the defense's contention that the girl could not remember the crime when she was three years old.

Judge Lester examined her yesterday over a vigorous protest by the defense and she testified that "a one armed" man, John Harrell, killed Mamma.

During the arguments over the testimony the jury was removed.

Two More Killed by Snipers in Belfast Fighting in Street

BELFAST, Sept. 2.—James Johnson, 14, died at a hospital this morning of wounds received during the street fighting here. His death with that of Walter Campbell, who died last night, brings the death toll in Belfast since Monday up to 18.

Johnson and Campbell were members of a group of five boys who climbed a wall to watch the shooting. They became the targets of snipers, one of which was killed instantly.

MAN DEAD FROM EATING SALMON FROM OPEN CAN

(By the Associated Press)

OKLAHOMA CITY, Sept. 2.—Eating salmon from a can that had been open for several hours proved fatal to George Lockridge, 65, according to physicians who attended him at a hospital here. Police were summoned to his room in a boarding house and they took him to the hospital where he died last night. Authorities are today trying to locate relatives.

SCHOOL TIME.

As the time draws near for the kiddies, the boys and girls to swing their books across their backs and hie themselves away to school, we older folk cannot but feel a pang of regret that our school days are over. We like to recall how we hit the ball at recess, booted the ball at "dinner" and teased the girls on the way home.

And then too, we cannot but feel a bit of sympathy for the boys and girls who go to city schools and have not had the privilege of sitting in the "little red school house." It was out there in the rural sections where school was school and life was life. Of course, with the large buildings, the athletic equipment, and the trained teachers, the modern lad has advantages his fathers never dreamed of. At the same time, the daddies had a peek of fun where the lad now gets a half gallon and some times only a quart.

To really enjoy school life, a lad or lassie should enter into the activities of school with pep. The class work should be brought up as nearly perfect as possible, but this is not enough. The boy who gets most out of school is he who takes part in debating, part of the athletic games, and the activities which bring him into contact with others.

Just a suggestion: Start in school with a thorough determination to go through the year and to learn something new in each subject each day. If you carry out this resolve, you will be the leader of your class next spring.

The patient under the influence of chloroform may not suffer pain while a leg or arm is being sawed off, but he loses the limb just the same. In regard to taxes it does not hurt at the time when they are extracted from the pockets of the payers without their knowledge, but it comes out just as surely as if he did. This is the form of taxation that the Republicans have always favored. The plan is to levy a high tariff which the consumer pays several times over, but which he does not kick against because he is not aware of the fact. It is when he must write a check, or borrow a lump sum to pay down that he gets hot under the collar and swears to go guuung for the author of such an outrage.

Just now the silver lining of the cloud which has overshadowed this part of the country for the past year is the increase in the price of cotton. A small crop and a high price is many times better than a bumper crop and no price. If a million dollars could be realized from the crop in Pontotoc county this fall things will be in several degrees better shape than many had dared hope for, and some who have been worrying will find that it was just another case of crossing the bridge before getting to it.

Congressman Herrick has broken into print again. This time press reports state that he was chased by the brother of one of his beauty contestants and the husband of another and he tried to call the police. And Manuel is from Oklahoma where the people of the East think men thrive on trouble. Probably the atmosphere of Washington is enervating and Herrick had shed his fighting clothes. However, we admit that two against one is rather heavy odds, even for a man from the short grass.

Why not vote bonds and build good roads while things are dull in other lines? A big road campaign now would give work to hundreds of those needing it, including farmers and their teams, and gives us roads when we need them worst.

Watermelons grow plentifully here. How about an association for another year and ship them by the car loads? If freight rates are ever lowered, this ought to be a paying business in this county.

So far as we are able to determine, Campbell Campbell will not figure heavily in next year's political campaign.

We wonder if that chick which crew before it was a day old is male or female.

Cotton is only king in one thing at a time. If he is king in quantity, he is a peasant in price. If he is a peasant in quantity he is a king in price.

There's always something to take the joy out of life. For instance, we understand that Roy Givens regrets hot weather is almost over.

We understand now why it is called an Irish stew.

WONDERS OF AMERICA

By T. T. MAXEY

© Western Newspaper Union.

"THE ELECTRIC SHIP"

THE NEW MEXICO was the first battleship constructed in the United States, to be propelled by electricity.

This ship is 624 feet long, weighs 32,000 tons and from the water-line to the top of the mast is as high as a ten-story building.

To drive it 21 knots an hour requires 28,000 horse power. Her oil-burning engines are fed from tanks which carry approximately 1,000,000 gallons of oil. Its nine boilers produce 36,000 horse power of steam energy. This steam turns two turbines which develop 32,000 horse power. These turbines are marvelous savers of fuel and space. Each turbine is connected to an electric generator. Each generator produces 16,000 horse power of electrical energy.

Huge cables carry this current to the control board from which the engineer operates the ship. From this point this power is sent to four giant motors of 7,000 horse power each—one of which is attached to each propeller shaft.

"Let electricity do it" is the motto on the New Mexico. Electricity revolves the gun turrets, moves, loads and fires the guns; raises the anchor, moves the rudder and pushes the ship; lowers the boats, pumps the water, runs the machine and blacksmith shops, heats and lights the boat; operates the interior communicating, fire protection, refrigerating, ventilating and telephone systems and wireless instruments; peels potatoes, washes dishes, mixes the bread dough, washes and irons the clothes in the laundry, sterilizes the instruments in the hospital and does numerous other unlooked-for stunts.

In every sense of the word, the New Mexico is an electric ship.

A Short Cotton Crop

(Pawhuska Capital)
The cotton crop will be the smallest in 25 years according to reports to the Federal Department of Agriculture. Discouraged by the drop in the price last year from 45 cents a pound to less than 12 cents, planters have cut their acreages in hope of forcing prices up.

How much the drop in the price of cotton, with its accompanying decreased buying power of the south had to do with the present business depression can of course not be definitely ascertained, but the fact is that this country never has known prosperity while the millions whose revenue is derived from cotton had an impaired buying power.

The Southern farmer should learn from the present depressed state of the cotton market the lesson he failed to learn from similar breaks in the past—that it is unwise to put all your eggs in one basket. Since before the Civil war the south has been a one-crop country. Raising only cotton, southerners have had to import from other sections foodstuffs which they themselves were better to raise themselves. Merely cutting down the cotton acreage will avail the south nothing unless it turns some of the east-while cotton land to the growing of grain and the raising of livestock.

Stop Fighting

(Durant Democrat)
Secretary of Labor Davis, when asked recently for a message to the employers and employees of America replied:

"My message to you is to organize and work together in harmony. Stop fighting and trying to put something over each other. No business man, no worker, no public man ever succeeded permanently by this method.

"Purge yourself of animosity. It is a sure thing that if we expect to enter the kingdom we must be free from animosity.

"Why not do it now? Put up a solid front. You employees, call your employer the greatest employer in the world; and likewise let the employer frankly say of his men that they are the greatest workmen in the world.

"By working together and pulling together we will sell the world American products. All three, labor, capital and public, are bound one to the other—the trinity of successful business which means fellowship, comradeship and co-operation."

It is timely advice. Too many

Trained Nurse Advises People

"I was a great sufferer of stomach and liver trouble and cannot say enough in praise of Mayr's Wonderful Remedy. It has done so much for me and I am recommending it to other sufferers. I was a trained nurse in Marine and other hospitals years ago, therefore many come to me for advice. I certainly received great benefit from Mayr's Wonderful Remedy." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.
Gwin & Mays Drug Co. and druggists everywhere.

WHY SOME FOODS STARVE YOU

Run-down People Found To Be Suffering From Lack of Vitamins. Now Supplied by New Yeast Treatment in Tablet Form.

You can eat hearty meals all your life and still have a starved system. Scientists have now learned that the most essential of all food elements—Vitamins—are lacking in most modern foods and must be supplied in special form unless we are to become weak and run down. Vitamins are tiny little vegetable organisms that exert a powerful influence on health and vitality. With out them no food will nourish. Only recently it has been learned that ordinary yeast is almost entirely composed of vitamins, and that the addition of yeast to our diet renews the health of run-down people, aids in building tissue, and even causes signs of old age to diminish. Yeast has also proven a splendid remedy for skin troubles, boils and pimples. Experiments in the greatest medical institutions have established beyond question the miraculous results of yeast-taking. But all yeast is not equally beneficial. The common yeast cake, for instance, is only a makeshift containing about 80 per cent starch and water and only about 20 per cent of yeast. The scientific yeast remedy is a concentration of the liquid brewer's yeast, combined with tonics.

A group of chemists have at last evolved a new formula containing concentrated yeast of high vitamin-strength, combined with iron and other tonics which make the yeast more effective. This preparation, in convenient tablet form, is called IRONIZED YEAST, and is the approved vitamin tonic treatment for run-down condition, lack of energy, neurasthenic symptoms, such as insomnia, weakness, etc. Ironized Yeast costs but a little more by the dose than common yeast. Each package contains 10 days' treatment and costs only \$1.00 or only 10c a day. It is pleasant to take and will not nauseate. Buy a package of IRONIZED YEAST today from your druggist. You will feel the good effects before you half finished the first box. Put up in sanitary form to retain its purity and full strength. Special directions for children in each package.

IRONIZED YEAST Tablets

HIGHLY CONCENTRATED VITAMINE TONIC
Made by the Ironized Yeast Co., Atlanta, Ga.

business men are engaged in criticizing labor and fighting it instead of trying to get along with it by judging its rights and needs fairly and giving it credit for its good qualities. Too many workmen are holding out for impossibly high wages and calling their employers profiteers and oppressors instead of trying to realize what the employers are up against. Too many of both are failing to grasp the rights of the public which stands for the whole community, regardless of special classes. The co-operative way that is indicated by the Secretary of Labor is the best way, and the only way, out of present difficulties.

"VAMPS" WHO MADE HISTORY

By JAMES C. YOUNG.

(© by McClure Newspaper Syndicate.)
THE WOMAN WITH THE "EVIL EYE."

"SHE has the evil eye," said Dumas, "she will bring a curse upon any man who loves her."

History knows the beautiful woman of whom he spoke as Lola Montez, but she was christened Elizabeth, the daughter of an Irish woman and Lord Byron, by the left hand. Afterward the mother married and went to India with her soldier husband. When the girl was sixteen, her mother came back to England for a time, and the young mistress proceeded to run away, marrying a soldier and departing for India.

Elizabeth left India, stopped in Spain, and changed her name to Lola Montez. She studied dancing and determined to storm London. Her appearance in 1843 was heralded as a great event, but she could not dance. Her failure brought hisses, and she returned to the continent, wandering through Germany and Belgium. Then she went to Warsaw. She conceived the idea of calling herself a Pole, for whom everybody felt sympathy because of their struggle for liberty. So Lola came to Paris, under another name, and started to dance. Once more hisses greeted her. It was the last straw. She flew into a fury, tore off her slippers and garters, and threw them at the audience.

Paris had been won. Lola, dropping her other name, became the fashion of the day. An editor was killed in a duel about her, and Dumas pronounced the line quoted above, which drove her from the capital. She next turned up in Munich and enslaved old King Ludwig. Then folly took hold of her. She started to rule the state and soon got into water so deep that she almost lost her life. A mob surrounded her palace and angrily demanded that she come out. Lola came, in her nightgown, pistol in hand. She emptied the contents into the crowd and barely escaped the mob's fury when Ludwig arrived at the head of the royal bodyguard. She had to flee, and Ludwig lost his throne.

Lola had exhausted Europe. She came to New York and tried again to dance. Once more she failed, and went West, dipping into the mining camps for a while, then on to Australia, and finally back to New York. Now she lies in Greenwood cemetery, Brooklyn, and not even an epitaph marks her simple headstone.

Doctor Says Mendenhall's Chill Tonic Best Substitute for Quinine

J. S. Wells, M. D., Weidners, Ark., writes: "I have been practicing in Arkansas 20 years and constantly prescribe Mendenhall's Chill & Fever Tonic where quinine is contra-indicated for children and adults with weak stomachs. It sticks where others fail." We make chill tonic in two forms, one which contains no arsenic and one with red label containing 20 minims Fowler's Solution of Arsenic to each fluid ounce. Chill tonic with arsenic is indicated in chronic malaria, anaemia (bloodlessness), general debility. Improves the condition of the blood when resulting from malarial influences. Arsenic is also useful in scaly skin eruptions and chronic eczema.
Sold by Gwin & Mays Drug Co.

Veteran of Civil War Still Hale and Hearty

GEORGE D. SHA W, Springfield, Mass.

"To say that I feel twenty-five years younger, twenty-five years healthier and twenty-five years stronger expresses what Tanlac has done for me better than any other way I can put it," said George D. Shaw, veteran of the Civil War, who now lives at 321 Walnut street, Springfield, Mass.

"I am now seventy-eight years old and I don't hesitate to say I have never known a medicine to equal Tanlac. For fifteen years I was subject to attacks of indigestion that were so bad at times I would have to lay up for a week or two. For a long time I lived on crackers and milk alone as nothing else agreed with me. "When I started on Tanlac I weighed only one hundred and seventeen pounds and my days were thought to be numbered. I've been

The Care of Children's Eyes

Right now, at the beginning of school, you should make sure that your child's eyesight is unimpaired. Many a scholar has found it impossible to study because of eye trouble and many children are cross and irritable from the same cause. Lack of glasses at this stage may bring a lifetime of eye trouble—and expense.

Legal Notices

Notice of Meeting
Notice is hereby given that the Board of Commissioners of the City of Ada, Oklahoma, will meet on the 13th day of September, 1921, at 2:00 p. m. in the City Hall of the City of Ada, Oklahoma, for the purpose of reviewing the report of the Board of Appraisers making appraisal and apportionment of costs to the various lots and tracts of land benefited by the paving, grading, curbing, draining, and otherwise improving of Street Improvement District No. 8, same being:

South Stockton Avenue from the south line of Main Street to the South line of Twelfth Street, including street intersection and alley crossings on the above described avenue in the City of Ada, Pontotoc County, Oklahoma.

The report of the Board of Appraisers is hereto attached and set out below, with "Exhibit A" and published herewith. At said meeting the Board of Commissioners will hear and adjust any complaints and review any appraisal and apportionment made by the Board of Appraisers, as provided by law, and will review, correct, raise or lower the same, and the Board of Commissioners will adjourn from day to day and from time to time until their labors are completed. At said meeting all persons interested may appear and be heard.

Signed this 30th day of August, 1921.
City of Ada, Oklahoma.
By Gary Kitchens, Mayor and Commissioner of Public Justice and Safety.

Attest:—W. B. Jones, City Clerk and Commissioner of Accounting and Finance.

Report of Appraisers
Ada, Oklahoma.
August 20th, 1921
To the Honorable Board of Commissioners,
Ada, Oklahoma.

Gentlemen:
We, the undersigned Board of appraisers appointed by resolution of your Honorable body to appraise and apportion to the several lots and tracts of land chargeable with the paving and otherwise improving of Street Improvement District No. 8, same being:

South Stockton Avenue from the South line of Main Street to the South line of Twelfth Street, including street intersection and alley crossings on the above described avenue in the City of Ada, Pontotoc County, Oklahoma, in the aggregate amount of Twelve Thousand Five Hundred Forty Three and 55-100 Dollars (\$12,543.55), do hereby certify that we met in the City Hall in said City on the 20th day of August, 1921, and organized as a Board of Appraisers, and selected J. O. Abney as chairman and C. M. Chauncey as secretary thereof; that we, at said time, severally took and subscribed an oath to make true and impartial appraisal and apportionment to the several lots and tracts of land designated in the resolution by which we were appointed, of the benefits resulting therefrom, as aforesaid; that within five (5) days after being notified of our appointment, we proceeded to appraise and apportion to said several lots and tracts of land the benefits resulting therefrom on account of the making of said improvements; that in making said appraisal and apportionment we first apportioned to each quarter block its due portion of the charge, according to the amount and the cost of work performed upon the abutting alleys and other public places, including street intersection and alley crossings; which respective amounts so appraised, apportioned and adopted we find just, equitable and accurate, and that the several respective quarter-blocks are benefited to the extent of the respective amounts so apportioned; that after such subdivisions into quarter-block districts, we appraised and apportioned to the several lots and tracts of land therein, the respective amounts set opposite the description of said lots and tracts of land contained in the statement attached hereto, marked "Exhibit A" and made a part hereof, which respective amounts we find equitable and just and according to the benefits accruing to said several lots and tracts of land.

Respectfully submitted,
J. O. ABNEY,
C. M. CHAUNCEY,
L. T. WALTERS,
Appraisers.

Filed this 20th day of August, 1921.
City of Ada, Oklahoma.
By Gary Kitchens, Mayor and Commissioner of Public Justice and Safety.

BIG FAIR EDITION

OF THE

Ada Evening and Weekly News

WILL BE ISSUED ON

September 8-9

These big editions will reflect the agricultural, industrial and commercial life of the county. They will boost the county fair and encourage the coming to Ada on the following week thousands of people from all parts of the county and from surrounding counties. They will go into outside states to let the world know that Ada and Pontotoc County are very much alive and ready to go.

Is Your Business Represented?

The forms for these editions will close early. You should come in at once and have your space reserved and then get your copy in as quickly as possible. If you are a live and progressive business man, we believe you cannot afford to have these big editions go out without your advertisement in it.

HOW DO YOU SAY IT?

By C. N. LURIE

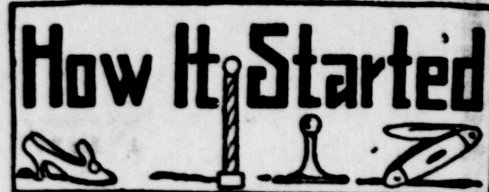

Common Errors in English and How to Avoid Them

"TRANSPIRE" AND "OCCUR."

TO OCCUR means to take place, to happen, to come to pass; to transpire means to become known, to escape from secrecy, to be made public. It is quite common, especially in ordinary speech and in writings in newspapers and magazines, to hear and see the verb "transpire" used instead of "happen" or "occur." Such usage is, however, quite incorrect, and is condemned by critics in England and America. "It transpired yesterday, at the meeting of the common council, that permission was withheld," etc., wrote a reporter, but he should have written, "It happened yesterday," etc.—or, better still, he should have omitted the phrase and begun his sentence with "at" and omitted "that."

Following is a case of the proper use of the verb "transpire": "At the meeting of the common council yesterday it transpired that last week's action on the street-railway franchise was not final"—that is, it became known.

THE FINGER PRINT SYSTEM.

THE British authorities in India, desiring to impress the natives with their omniscience, hit upon the idea of taking the finger prints of everybody. Later the scheme was brought to Scotland Yard, the police headquarters in London. From there it spread till it is now in universal use.

(Copyright.)

A Long Wait.

Father (as he starts to carve)—"By the way, my dear, I've got to attend a bankers' dinner tomorrow. They expect over a hundred. Tommy—"Gee! I'd hate to be the youngest where there's that many to be helped."—Boston Transcript.

ULTIMATE OBJECTIVE

Old Mr. Multitox—And so, you are willing to make me happy by becoming my wife?
Young Miss Goldilox—Yes, I suppose I'll have to be your wife in order, eventually, to become your widow.

AGED WOMAN WILL BUY BUGGY WITH HER NEW MILLION

(By the Associated Press)

TULSA, Sept. 2.—What would you do with \$1,000,000 should you win that amount in a suit for title to land? Mrs. Rachel Perryman, 85 years old, Creek Indian woman and grandmother, who recently filed suit for \$1,000,000 worth of real estate in Kirkwood Place, here, says she would buy a new buggy, purchase a young horse, and perhaps buy a few good cows.

"After that," she says, "I don't know. I don't like automobiles, though, they go too fast." Forty years ago, Mrs. Perryman said, she used to follow the droves of cattle from the Perryman ranch near here, to market at Coffeyville, Kansas. In those days, her husband, George Perryman, was still alive, and Tulsa wasn't even a village, she says.

When the oil rush began, after she had become used to the cattle raising business, a demand for vegetables started, and Mrs. Perryman started raising them. Her truck garden became famous, and her husband extended his holdings, she declares, until they included a vast amount of land where Tulsa now stands.

The Perryman home, she said, was built on the site of the present Tulsa county court house. As much as ten and twelve dollars advance was paid daily on calls for produce from her truck garden, Mrs. Perryman said, Tulsa was known as the richest Indian woman in this part of the country.

"That was before Indians began to take interest in oil," she said. All Mrs. Perryman's children were sent to school. "I wanted them to have a real education," she stated, through her foster son David Beaver, who acted as her interpreter. She speaks English only brokenly, her son explained.

If you feel bad; if you are "blue" tired and discouraged, without apparent reason, you need Prickly Ash Bitters, the system purifier. It cleanses the stomach, helps digestion, drives out gas and fermented matter in the bowels, and brings back that fine feeling of strength, vim and cheerfulness which only men in perfect health enjoy. Price \$1.25 per bottle. Sold by Gwin & Mays.

The Ada Weekly News is gradually becoming a real farmers' news paper, edited by Byron Norrell. It not only has a wide circulation, but an advertisement in it carries also the prestige of its reputation for truth and right dealing.

MAGIC OF SCIENCE ADDS MILLIONS OF DOLLARS TO FARMERS' ANNUAL PROFITS

OTTAWA, ONT.—Grain growers of the three prairie provinces have been enriched \$20,000,000 annually, according to a report by the Dominion Department of Agriculture, by the discovery of Marquis wheat by the cereal division of the experimental farms branch.

Introduction of Daubeney, Victory and Banner oats, the report shows, has added \$9,000,000 a year, while other new coarse grains have been responsible for a value increase of \$3,000,000.

Plant breeding has led to new varieties, such as the Melba apple, early Malcolm corn, Alacrity tomato and hardy types of tree fruits. Supervision and control by the animal branch of the department has made Canada first among all countries in health of its livestock. Crusades by the botany division against rust and control of late blight and potato rot, according to the report, save the country \$32,000,000 annually.

In field husbandry, by greater use of crop rotations it is estimated Ontario alone is benefited \$32,000,000 annually. Summer fallowing gives the prairie provinces a gain of \$90,000,000 annually.

It is through the services of the Dominion Department of Agriculture and other aid extended by the government that newly settled lands show big returns from the start and the aggregate yield each year increases.

WILSON MAY IMPROVE SCHOOL BOOK ISSUE

(By the Associated Press)

OKLAHOMA CITY, Sept. 2.—A bill to penalize publishing companies which do not live up to their contracts to furnish books to Oklahoma public schools by a certain time, by barring them forever from doing business in the state, will be introduced before the next legislature, by R. H. Wilson, state superintendent of public instruction, he said today.

"Is it getting to be an outrage," Mr. Wilson said, "These publishers make school children wait on their convenience, and it should be stopped. I am not radical, but I believe in a law which will compel these men to 'come to time.'"

Mr. Wilson has written letters to school superintendents of the state telling them that if the books authorized and contracted for do not arrive in time to start the school, that they may start any other reader or book available, and make it standard in that school for the next three years.

"Such action should make these publishers realize we mean business," he said.

There now is a shortage of primers and first readers in some sections of the state, according to the state superintendent.

In a letter to a large publishing company of Chicago, Ill., which has contracts to furnish books to Oklahoma public schools, Mr. Wilson he explained his stand, and asked them to co-operate with him in getting the books to students in plenty of time.

"I don't believe there is any court in this state which will hold us to our contracts with the publisher when it is found they make us wait after school has started to receive our books," Mr. Wilson said.

SCHOOL BELLS TO CALL 3000 YOUNG OF ADA TO STUDY

School bells, breaking abruptly into a summer vacation with all of its ease and blissful carelessness, will call 3000 school kids of Ada back into the halls of study September 12.

Announcement Friday by City Superintendent J. E. Hickman of teachers meetings and dates for registration of high school students came as a reminder to the city that summer has gone and school days come again.

Teachers for ward schools, Ada high school, and East Central are drifting back into town this week from their vacation, too. With all faculties complete, it remains only to organize the teachers in each building and then Ada's school system will be ready to hit its swing again.

School buildings, quiet for more than three months now, will reverberate with the voices of returning youngsters, fresh from a summer of play and recreation. Clean black boards and desks that await the coming again of the city's army of education seekers will soon become the media of more learning. Quiet playgrounds that have been consigned to idleness for the summer will become the scenes of sudden animation.

It's September again and the school bells will be ringing soon.

Pawhuska—Elgin Gay, recently elected coach of athletics at Dewey Okla., high school, has left this city, where he was secretary of the Pawhuska Western Association baseball club, for Dewey.

THE RIGHT THING AT THE RIGHT TIME

By MARY MARSHALL DUFFIE

ABOUT INTRODUCTIONS

We are more sensible of what is done against custom than against nature.—Plutarch.

NO ONE has any good excuse for not being able to make introductions easily and in good form. It is simply a matter of knowing the right form and then in a little practice. It is an act that requires no originality and no special talent. But there are a lot of people nevertheless, who always do bungle an introduction, and this for the simple reason that they do not give the subject sufficient thought or do not trouble themselves to look up the right way to do it.

The other day I observed a stalwart young corporal, proud to have his cheery-faced little mother visiting him, and eager to introduce her to his friends.

"Mother, meet Sergeant Jones," he said as one of his friends approached, and again, "Smith, know my mother."

To be sure this answered the purpose and as every one was very happy on the occasion it probably didn't make much difference how the introduction was made. But the form was far from courteous.

In the first place a man should always present or introduce his men friends to his mother, or any other woman, and he should use a form of introduction that shows that he is making the introduction in this way. Moreover the abrupt manner of saying simply, "Meet Mr. Brown," or "Know my friend Jones," which has recently become so popular is really too abrupt to be in good form for any purpose save possibly for men to introduce men to each other in a purely business connection. It should never be used in introducing women.

The right way for the young soldier to have gone about it would have been to say, "Mother, I want to present Sergeant Jones." "Jones," this is my mother," or "Let me introduce Sergeant Jones to you, mother; Sergeant Jones I wish to present you to my mother." In a case like this it is not necessary to give the mother's name. The only occasion where it would be, would be in the case the mother, through remarriage, bore a name different from the one of the son who introduced her.

(Copyright.)

Moved and Seconded.

Indirectly, the recent prize fight gave us a new word, or rather revived an old one, for there our national word—simWe sharp, Frank Wilestach, says he heard for the first time the word "dither." This means to quiver, to vibrate, as, for example, "She caused the audience to dither with delight."

Not a particularly pretty word, perhaps, but a prettier one for the same thing than shimmy, which we suggest be sent immediately to the cannery.—Boston Transcript.

The habit of "putting it off" has caused the loss of many lives. A dose of Prickly Ash Bitters at the first sign of indigestion, constipation and kidney trouble wards off sickness and saves money. Men who are good managers should always keep a bottle on the shelf at home. Price \$1.25 per bottle. Sold by Gwin & Mays.

(adv.)

MR. AND MRS. CITIZEN

DEAR FOLKS—

Flowers for the lady are always appropriate, but a box of unusual candy is ever an acceptable gift. We will furnish that box of confection with a difference that makes for distinction.

Our candies are just a bit the best for the money that you can find. I mean this.

We have so many things of interest to the lady for we carry a wonderful line of toilet articles, cosmetics, perfumes, toilet waters, scented soaps and all those things of the bath and toilet so dear to the heart of the woman fastidious.

It is said that a thing of beauty is a joy forever. Our store, my store, your store if you wish is a joy forever then without taking the boss into consideration. But seriously many compliments have been paid us regarding this drug store of mine. I shall not say that we deserve them all but modestly admit we deserve a lot of them and more that have never been paid us. There are still a few folks in this neck of the timber who do not visit us as frequently as they should. They do not know what they are missing.

Sincerely,

R. E. Greenwood

State News

(By the Associated Press)

Oklahoma City.—The Oklahoma library commission has started a war on books for children which are printed in small type. "They injure children's eyes and I won't have them on the shelf," Mrs. J. R. Dale, secretary of the commission said.

Drumright.—An ordinance to regulate the sale of milk in this city is being drawn up by the city commissioners, it was announced.

Tulsa.—Tourists were refused the use of Woodland park as an automobile camp, in a temporary injunction issued by District Judge Valjean Biddison. Citizens in the vicinity had complained it was unsanitary.

Miami.—Mrs. Elmina Porter, 91 years old, died recently at the home of her son, William Porter, she had 32 grandchildren and 40 great grandchildren.

Nowata.—Alta Berker, 14 year old daughter of J. W. Barker, and Blanche Creason, 13 year old daughter of Simon Creason of Cody's Bluff, have been missing from their homes since August 27 when they were seen together at Chelsea, Okla.

Kingfisher.—More than \$10,000 worth of hogs were shipped to Oklahoma City markets this year by A. B. Conley, Kingfisher county farmer, according to word received here from Oklahoma city packers.

WELCH'S PRELIMINARY IS CONTINUED AGAIN

Further delay, which now threatens to drag into weary months awaiting complete recovery of Joe McElreath, principal witness in the case, developed Friday morning and caused a second postponement of the preliminary in the case of the

state vs. D. C. Welch and Edward Welch, charged with assault with intent to kill McElreath.

The new date for the preliminary was set for September 23. The continuation was granted by Justice of the Peace H. J. Brown upon notice from the state that it would be unable to present the injured man as complaining witness until he has fully regained his speech.

Although doctors declare that McElreath, who was stabbed to the heart more than a month ago, and is still suffering from partial paralysis as a result, will some day be in the possession of all of his powers, the process probably will be slow, they say, and ever further continuance of the preliminary may be necessary.

In The Oil Fields

The following article is clipped from one of the newspapers at Breckenridge, Texas:

"Breck Bonded syndicate, on the Hale lease, ended a history of a property which dates back to the start of the oil boom in the Stephens county fields and which is marked with reversals, disappointments and delays, and ended it successfully, with a jolt of 160 quarts of tincture of TNT at 6 o'clock last night. Shooter Price of the Independent Torpedo company administered the dose.

"The pay was found at 3,060 feet. The shot came clean and two hours after the well was guaging forty-five barrels an hour, approximately 1,200 barrels daily, according to members of the company.

"The No. 1 derrick on the Hale lease was erected two years and three months ago. It has passed through many hands before it reached the Breck Bonded, which was promoted by Frank S. Roberts, Walter Puckett and Miss Tampa Cole. Its completion, successfully, is regarded as a distinct triumph for the syndicate, which will drill another well on the same property and another well which has not yet been located. The company has \$92,000 capitalization."

Miss Cole is an Ada girl, having lived here several years. She is a sister of Joe Cole, and has hundreds of friends here who will rejoice with her in her success in the oil fields of Texas.

Mr. Puckett is a brother-in-law of Miss Cole and has many acquaintances in Ada.

Many Ada citizens are interested in this property and they now see visions of wealth.

SOONERS ARE OUT FOR MORE VALLEY GRIDIRON HONORS

(By the Associated Press)

NORMAN, Sept. 2.—The crimson and white of the University of Oklahoma will flash again into the spot light of the Missouri Valley football conference when the first Oklahoma game of the conference is played here October 22 with Washington University, of St. Louis.

The title winning team of last year will not be back in full, but about ten letter men will return to school, according to Coach Benny Owen. When asked directly how many letter men would be back, Coach Owen said, "Pshaw, now, you tackle 'em for me, you're not busy. That is to say, 'how should I know?' I won't know until I see them on the field, but I expect ten letter men back."

"Of course the Sooners always hope to battle well, and we'd like mightily to keep that pennant but how would I know what sort of a team will turn out until I see them?" the coach said.

The business depression of the past summer may seriously affect the team according to the coach, who said he feared many of the good freshman team of last year, and some of his letter men, would be held out of school because of lack of funds.

The 1921-22 schedule of the Sooners follows:

October 8—Central State Normal at Norman.

October 15—Oklahoma A. and M. college at Norman.

October 22—Washburn college of St. Louis, at Norman.

October 29—Nebraska at Lincoln.

November 5—Kansas at Norman.

November 12—Missouri University at Columbia.

November 19—Kansas State at Manhattan.

November 24—Rice at Houston.

"SWAMP CHILL TONIC DOES THE WORK!"

Arkansas Merchant Highly Praises Famous Old Remedy

J. W. Mustain, Dealer in General Merchandise, Old Grand Glaize, Ark., sells a lot of Swamp Chill and Fever Tonic. The reason he sells a lot is expressed in a letter he recently wrote us, which says: "Swamp Chill Tonic sure does the work. I certainly want to thank you for your fair dealings."

John C. Rogers, Center, Tex., says: "I have sold your Swamp Chill Tonic for years and it is my favorite tonic. I always recommend it, because of its fine laxative properties."

Dealer C. E. Miller, Bernice, La., says: "I handle all the standard chill tonics on the market, but sell ten bottles of Swamp Chill Tonic to one of any other kind. After a customer has used it once he or she will use no other kind."

Thousands of other dealers in many different towns and cities strongly recommend Swamp Chill Tonic to their customers as the very best malaria remedy on the market. 60 cents a bottle—get one today.

BRILLIANT PROSPECTS BEFORE E.C. GRIDSTERS

(Continued from page 1)
heavy and efficient line man of last season, who has had much experience on the high school team. Meaders and Evans and one or two others are also probable timber.

Of last year's men, only a few will be back. Some of last season's second string men will come out. It is believed Cover and East, both last season's men, are considering attending the Normal this fall. If they are added to the line-up, many of the weak places made by vacancies will be strengthened. Hall, of Okmulgee high school, an athlete of state wide renown and one who has made a good showing on the high school football field, may also be added to Ada's team. Washington of Roff is also considering entering school. He is a last season's man who became a favorite of fans. Thompson declared that all sports in which his men took part would be absolutely clean.

Plans Night Class.
This will be one of the strong points of his instructions. To acquaint his men with the game in which they will participate he is planning an evening class in which he will endeavor to explain things that are not understood and give lessons on rules which will be very essential.

All fans are invited out to watch scrimmage and work outs. Any tips from the side lines will be appreciated. Mr. Thompson said. With the array of husky men, he hopes to build a machine that will be able to stand the hardest blows from opponents and take the big end of the score by playing clean. While other colleges are reporting weakened teams on account of losing men which cannot be replaced, Ada Normal is enjoying the prospects for some even stronger men than were lost from last season's team.

More than \$400 worth of new material has been received. This includes some of the best on the market. It is said, an every advantage to be obtained from good equipment will be afforded the team. Thompson intimated that he had a lot of new stuff to try his men with this season. He has been studying during the summer for the work and feels confident that his men will be all that could be asked.

First Game at Tulsa.
The first game of the season will be played at Tulsa when the Normal meets the strong Tulsa University grid squad. This promises to be a forecaster of the team's prospects this year, as the Normal managed to hold that winning team to a 10 to 0 game last year. The game will be played October 1.

The remaining schedule follows:

Oct. 8—Ada vs. the Oklahoma School of Mines, here.

Oct. 15—Ada vs. Catholic University, here.

Oct. 22—Open date.

Oct. 28—Tahlequah N. W. S. N. vs. Ada Normal, there.

Nov. 4—Ada vs. Tishomingo Ag. here.

Nov. 11—Ada vs. S. W. S. N., here.

Nov. 18—Ada vs. Durant Normal, here.

The Thanksgiving game will be played with Oklahoma Baptist University at Shawnee.

This makes three games away from home and five at home, not including an open date. Ada fans will get to see the Normal squad in action two consecutive weeks in October and three consecutive weeks in November.

20 TRIBES POW-WOW IN PONCAS FESTIVAL

(By the Associated Press)

SPokane, Wash., Sept. 2.—The latest proposal for the formation of a new state from parts of Idaho and Washington seems in danger of going the way of similar schemes that have preceded it ever since before either of the two states was admitted to the union.

With the death of State Senator R. A. Hutchinson, chief sponsor of the new state plan in Washington, a proposed meeting of northern Idaho and Eastern Washington interests set for early September apparently has been abandoned, and supporters of the movement in northern Idaho have been quoted as expressing a doubt that the present is a propitious time for broaching the proposal.

A commission authorized by the last session of the Idaho state legislature to take steps looking toward formation of the new state has not been appointed, and doubt has been expressed that it ever will be named.

One new element recently injected into the discussion is that of taxation. The tax rate in Washington is much higher than that of Idaho it is pointed out, and fears have been voiced that this would deter Idaho taxpayers from favoring the proposal at this time.

Clean-Up Squad Nears Ada on Schedule For Hearing Vet Claims

With but three more stops, covering ten counties, before them until they arrive in Ada, members of the government clean-up squad on former service men's claims for compensation are urging veterans in this part of the state to prepare their affidavits and have everything in readiness when the squad reaches here September 8 and 9.

Friday the squad is working at Hugo on claims from McCurtain, Choctaw and Pushmataha counties. Saturday the group will move on to Durant to hear petitions from Bryan, Marshall, Carter and Love counties. McAlester, their last stop before coming to Ada, is scheduled for September 6 and 7 at which time men from Atoka, Pittsburg and Latimer counties will be heard. Former service men from Pontotoc, Coal and Johnston counties will make Ada their headquarters on Thursday and Friday of next week to meet the squad. From here the committee will go to Shawnee.

The Ada Weekly News reaches almost every farm home in the county. Are you taking advantage of this effective means of getting your message abroad? What do you have to sell to farmers? Try it.

Let a News Want Ad Get It.

TROOPS ORDERED ABOARD FOR WEST VIRGINIA

(Continued from Page 1)
WASHINGTON, Sept. 2.—Federal troops from four camps, numbering approximately 4000 men, at noon today were enroute or in readiness to move to West Virginia to enforce the decision of the federal government to restore order in the coal fields.

Orders for the movements of the troops were issued early today by Major General Harbord, assistant chief of staff, on the recommendation of Brigadier General Bandholtz, representative of the war department in the disturbed area.

Army officials observing and directing the movement pointed out that such action by the federal government in West Virginia would be "no child's play." Secretary Weeks today was optimistic over the situation and expressed the belief that as soon as federal troops reached the disturbed area the armed bands responsible for the disorder would voluntarily disperse.

Meanwhile the second step to be taken by the federal government—the declaration of martial law in five West Virginia counties—was deferred pending the arrival of the troops at their destination.

Ft. Thomas Troops Off.
FT. THOMAS, Ky., Sept. 2.—Two companies of troops left on the Chesapeake and Ohio train at 11 o'clock today for the West Virginia coal fields.

1400 Men Training.
LOUISVILLE, Ky., Sept. 2.—The 40th infantry recruited to 1400 officers and men began entraining at Camp Knox, near here, today for West Virginia. Col. E. A. Shuttleworth was in command.

19th Infantry on Move.
CAMP SHERMAN, O., Sept. 2.—Two troop trains carrying the 19th Infantry numbering about 600 officers and men left here for the west Virginia mining district at 9:20 a. m. today. The troops were fully equipped for field duty. Box cars and flat cars attached to the trains carried horses and other equipment.

BANDHOLTZ MESSAGE IS GIVEN WAR DEPARTMENT

(By the Associated Press)

WASHINGTON, Sept. 2.—General Bandholtz's message sent shortly after 1 o'clock last night when troops were ordered out was given to the war department as follows:

"Investigators returning about 1:30 tonight report that the invaders have not obeyed the President's proclamation and there is no apparent intention to do so. It is therefore recommended that troops now held in readiness be sent to West Virginia without delay."

An early communication from General Bandholtz said: "It is believed that the withdrawal of the invaders as promised by Keeney and Mooney, president and vice-president of the First Mine Union, would have been accomplished but for the tardy sending of trains and particularly but for the ill timed advance movement of the state constabulary on the night of August 27, resulting in blood shed."

lieved that the withdrawal of the invaders as promised by Keeney and Mooney, president and vice-president of the First Mine Union, would have been accomplished but for the tardy sending of trains and particularly but for the ill timed advance movement of the state constabulary on the night of August 27, resulting in blood shed."

TROOP COMMANDER SETS UP CONVENIENT OFFICE

(By the Associated Press)

CHARLESTON, W. Va., Sept. 2.—Brigadier General Bandholtz, who will be in command of the troops in West Virginia, busied himself today working out the placing of forces at strategic points. Taking the entire floor of an office building he surrounded himself with every convenience and advantage to, getting into quick communication with Washington and the disturbed counties.

"We are going right in and swamp the disorderly element," said a high military authority today. "No authentic information of fighting was available at the office of Governor Morgan during the morning hours."

ROAR OF FIGHTING IS REPORTED BY AIRPLANES

LOHMAN, W. Va., Sept. 2.—After a morning of uncertainty in which the Spruce Fork Ridge was the scene of sporadic fighting since day-break an official announcement states that "heavy firing" is taking place at Blair mountain, Mill Creek and Crooked creek.

Col. Eubanks said that one Logan man was wounded on Blair mountain and five of the opposing forces had been seen to fall.

Airplanes reconnoitering over Boone county, east of the ridge, report an increased activity among the armed men having been assembling there, while a courier from "the front" said it was a "continual roar along the entire line."

These reports were sanctioned by both civil and military authorities here. Indications of heavy fighting since the line was established

along Spruce Fork Ridge was made today and efforts are being made by Logan county authorities to see what can be done to stop what they term an invasion of their county.

ST. ALBANAS, W. Va., Sept. 2.—Women and children from the Little Coal River country where armed bands have been gathering along the eastern slope of Spruce Fork Ridge have arrived in large numbers and were being cared for in hotels and with private families.

Many of them are the families of business and professional men, although some are wives and children of miners.

No trains were running today and the station agent said all the wires had been cut.

Reports received this morning stated that physicians around Blair had been summoned to that place where a temporary hospital has been established.

Phone 4 is the place to get service in job work or advertising.
